### WORK EXPERIENCE

I don't have any work experience but I have worked in academic projects. Currently, looking for internships in web or java development for work experience.

### HOBBIES

Playing outdoor and online games, listening to music, exploring new technologies.

### CAREER OBJECTIVE

Passionate for full stack development, I have sense of logic building and implement them in my projects.

### ABOUT MYSELF

I had interest in computers as a child, so I thought to pursue this course as I wanted to know about computers a lot. There may be things about I would not have knowledge but I can assure you that I can work on it and learn about it.

### SKILLS

- HTML, CSS & Javascript
- React JS
- PHP
- Java
- Python
- MySQL
- C# .NET

### EDUCATION

#### BSc Computer Science

Ramnarain Ruia Autonomous College(2021 - Present)  
| 8.88 CGPA |

#### 12th Grade

KJ Somaiya Junior College of Science(2019 – 2021)  
| 95.17% in Science |

### CERTIFICATIONS

Certificate Courses in C, C++, Python from Keerti Institute.

### LANGUAGES

English, Hindi, Marathi, Oriya

### PROJECTS I HAVE WORKED ON

#### TRANSPORT COMPANY PROJECT

A project having two interfaces, one for customer and other for admin. Customer can login and book tickets for bus, airway, give feedback whereas the admin can see the users logged in tickets booked and feedback shared.

#### Technologies Used:

Front End: HTML, CSS, Javascript

Back End: Java Servlet

#### BLOOD BANK PROJECT

A web application two user interfaces, one for hospital and other for blood requester. Anyone can see the blood samples in the blood bank without logging in. Once logged in requester can request blood from a particular hospital and hospital can either add the blood to their bank or see the requests submitted to them.

#### Technologies Used:

Front End: HTML, CSS, Javascript

Back End: PHP

#### BUS TICKET BOOKING PROJECT

A java application where user can login, fill details and book bus ticket. After booking, a ticket is generated and displayed to them.

#### Technologies Used: Java Swing

#### QUIZ

A java application where user logins and plays a quiz of 10 questions. At the end, the number of correct answers are displayed to user and inserted to database using jdbc.

#### Technologies Used: Java Swing

All the projects are uploaded on my GitHub Account.
