STUDENT

CAREER OBJECTIVE

Passionate for full stack development, I have sense of logic building and implement them in my projects.

ABOUT MYSELF

I had interest in computers as a child, so I thought to pursue this course as I wanted to know about computers a lot.
There may be things about I would not have knowledge but I can assure you that I can work on it and learn about it.

WORK EXPERIENCE

I don't have any work experience but I have worked in academic projects. Currently, looking for internships in web or java development for work experience.
